

## **Transportation Equity Act One-Pager**

This bill aims to permanently establish the Advisory Committee on Transportation Equity (ACTE) within the U.S. Department of Transportation (USDOT) under the Federal Advisory Committee Act (FACA).

The ACTE works to ensure that transportation systems in the United States are modern, affordable, safe, and efficient, catering to the diverse needs of all Americans.

The ACTE is vital for ensuring that our transportation policies and investments foster job creation and serve all communities fairly and equitably.

As Congress considers major infrastructure investments and policies to grow our economy and build a more prosperous future for all Americans, it is imperative that the USDOT takes well-defined and measurable actions to modernize our infrastructure.

Additionally, we must ensure that marginalized urban, rural, tribal, and other underserved communities are equitably allocated resources to thrive.

By supporting the enshrinement of the ACTE, we will empower communities to co-design policies and systems that fulfill their transportation, safety, health, and economic needs.
